U.S Circuit Court
S. D. O.

Elizabeth Seldern

vs

William C. Bakers

* Affidavit of
W. C. Bakers
and Exhibit Book "A"

Filed June 11. 1875

Thos Ambrose
Clerk

Book "A" reflects
on affidavit attached hereto

H. L. Jones

May 1901. Frank

Left with W. L. Baker on

in Columbus Ohio on Dec 14th 1874.

It having been taken from the files
of the Auditors office Green's book
on the above date.

The State of Ohio
Franklin County. Before me the
Undersigned Authority
personally appeared W. C. M. Baker and being
first duly sworn says ^{that} he is the defendant
in a suit pending in

Wherein one
is plaintiff and that he is of the age of
Forty two (42) years. That he resides at present
in Ohio and says that six
years prior to March 1867. he was Auditor
of Greene County Ohio and for the six years
prior to that he was Clerk and Deputy
Auditor in said office. That during the
whole of that time he was familiar with
all the duties of said office and all the
books and records thereof, that the accounts
between the Auditors and Treasurers office
were for the most part kept by himself.
That the books during said time, showing the
disbursements from the County Treasury, contained
on the left hand page a Column for date, one
for numbers, one for the name of the person receiv-
ing the money. one showing the purpose for which
the money was paid and one for the amount
and the books showing receipts into the County
Treasury contained a Column for date, one
for numbers, one for name of person paying the
money, a Column for what the money was paid
and one for amount, That in the compilation
of his the said W. C. M. Bakers Book of 1867 the said

above mentioned Columns were repeated with the addition of the Column "By" on the left hand page meaning by what authority, and the printed headings of said Columns were made to agree with the Statutes, See Swan & Critchfield Statutes Vol. 1 Page 78 Sec 13. Vol. 2. Page 1584 or Sec V. Affiant further says that the Columns aforesaid were not new or original with Charles Holden, and that during the time of his being employed in said County Auditors office commencing with the year 1857 he used a book in which he ruled Balance sheets to enable him to ascertain the net balance of taxes collected in each Township or Corporation that said balance sheets were ruled with a wide Column on the left and Columns on the right for accounts that in the first Column to the right was entered the amount of tax originally levied, under which amount was entered any additional tax collected or entered. These two were added and the amount extended into the first next Column to the right under this last named amount was entered any taxes uncollected and this uncollected tax was deducted from the amount above it and the balance extended into the next right hand Column, under this last amount was entered the Treasurers per Cent allowed upon the Collection and the Treasurers per Cent was deducted, and the net taxes collected was extended into the next right

hand Column, showing the balance —

The above named book was original with me and was used from five to seven years before

said book is attached to and made a part of this affidavit marked "A" affidavit further says that in the construction of his said book of 1867 on the lower part of the right hand page he arranged a balance sheet which sheet was taken from the said balance sheet in said book marked "A" and was improved by making an additional Column for the additional amount received, instead of setting this under and in the first Column, and a Column was added to receive the payments or deductions instead of putting each amount to be deducted under and extending the balance by so doing does not make my said balance sheet similar to a copy of Charles Selden but are in fact the reverse and dissimilar that the columns total received and total paid out contain the results of the four preceding columns and were made necessary from the additions; the seventh Column in said Balance Sheets and the right are common to all book keepers in taking off a balance sheet the seventh Column being identical and used for the same purpose as the debit Column in a balance sheet which is used to show the amounts due or assets of a house, and the right is the same and identical with credit Column in a Balance sheet which is used to show what the house owes or the liabilities thereof, and that in construction the

balance sheet the author headed them
balance' and overpaid instead of Dry
as was common: affiant further says that the
two outside right hand columns in Selden's Condensed
Ledger are not new or original with him, they have
been in use in Balance sheets time out of mind
and are always used in giving results of a set of
Books, that the ruling of Seldens Condensed
Ledger with a column for funds in the middle
is common in six column Journals and
has always been so. Affiant further
says that he is publishing a book for the use
of County Auditors and Treasurers which he has
Copyrighted and it is known as his book of 1875
that said book as to left hand page contains
Columns as follows. Date - number of order
Name of person to whom order given. For what
purpose money paid - Authority for issue
of order - County - Infirmary - Bridge -
with a number of Columns not headed
lastly a Column headed "total" That said
first five Columns of said Book are made
as all books for County Auditors have
been for more than thirty years and
in conformity to the Statute laws of
Ohio See S. H. C. 1. 98 Sec 12 Vol 1 - & Vol 2
S. H. C. Page 1884 Sec V. Affiant further
says that books for keeping the disbursements
of funds from the County Treasury have been
kept with similar rulings and Columns
since my first knowledge of said Auditors
and Treasurers in the year 1855; That no

part of said left hand page is taken from
or is an infringement upon any books
Copyrighted by Charles Selden - and affiant
says that the upper portion of the right hand
page of said book of 1875, is used for receipts
and contains Columns for Date No of Warrant
name of person paying Money For what purpose
Money received "County" with blank columns
and one headed total, that the first four,
first named columns, of the upper portion of said
right hand page have been used for years
previous to the Copyright of Charles Selden and
are common to all Auditors and Treasurers offices
and are now published to fill the requirements
of the Statutes of Ohio See Laws. Vol 17. p 13
Affiant further says that said portion of said
book is not a copy from nor an infringement
upon any book published by Charles Selden
that the lower portion of the right hand
of his book of 1875, is used for making a statement
of the Conditions of funds in the County Treasury,
that the ruling is identical with that used by
myself in 1859. in the books marked "A" and
attached to this affidavit as to the first wide
column to the left for the name of the fund
as to the first column in which entered the
prior amount received in each fund and
under said amount is set the additional
received, which said amount is added to the
first amount. The same as in the first column
in first original book marked "A" & made
a part of this affidavit.

That the 2nd Column in my book of 1875 in the lower portion of the right hand page is used identically for the sums paid from the Treasury that the 1st Column is used for funds paid into the Treasury.

That the 3rd in lower portion of the right hand page is used first to enter the total amount received in each fund under which amount and opposite each fund is entered the total paid out of each fund, which said last amount is deducted from the former identical as the second Column in the original book marked "A" and made a part of this affidavit. The 4th in the lower portion of the right hand page is used on which to extend the balance in each fund and is identical in its use and purpose with the 4th Columns in the balance sheets in said Book marked "A" The 5th in said portion of the page above mentioned is similar to a "Cr." Column for making a statement or balance sheet from any set of books and that all the above named rulings headings & columns were in use by him from first to some years previous to the time he ever heard of Charles Seldens Copyrighted books and a long time before said Seldens books were Copyrighted that the combination of these rulings and headings and making a book of the same

was not taken from and is not an infringement
upon Charles Selden's Copyrighted books
that the combinations of these rulings &
headings and making books for County Auditors
and Treasurers is not an evasion of any order
of this Court. and affiant says further that in
1867 he issued a book for keeping the accounts
of County Treasurers, that said books contain
on left hand page certain Captains
rulings and Columns as follows. Date -
to of non - person to whom order issued -
then following to the right are Columns
headed. County - Infirmary - Bridge with a
number of blank Columns following them
total Columns - said first four columns
were made to conform to the Statutes of Ohio
See Swan & Critchfield Vol 2. Page 1584 Sec V
that this ruling and arrangement admits
the entry of every order at the time of
payment and the numbering of each
consecutively. that books similarly ruled
by me at to first 4 columns were used
in the offices of County Treasurers for years
before Charles Selden's books were Copyrighted
and years before affiant ever heard of
Charles Selden or his books. Respondent
further says that the book issued for by
Charles Selden for the use of County Treasurers
was ruled on the upper part of the left hand
page into four different General divisions
the first 3 of said divisions are headed
Disbursements the 4 " Receipts - The 1st
under the head of Disbursements contains the

unds printed County funds - The whole
space under the words Disbursement &
County funds comprising this first general
Division is divided into Columns as follows.
Adjusted next to next date next account.
The next two of these general Divisions headed
Disbursements are similar in ruling to
first except not headed with name of
any fund but in use are headed by entering
name of fund. The 4th division is headed
receipts and contain the same ruling ~~as~~
and headed same as first 3 general Division
That the three first general Divisions headed
Disbursements on the left hand page require
that the orders redeemed shall be sorted
and the number of orders redeemed on each
fund selected and entered by themselves
at stated times making it a necessity
that they can only be entered at stated
times so as to be sorted and fill a particular
space that this causes the orders to be entered
in non consecutive numbers. The 4th division
on said left hand page is headed receipts
and requires said receipts to be sorted and
entered the same as Disbursements thus
making Seldens book for County Treasurers
as to left hand page entirely different
from my book of 1867 and further says
that said left hand page was not taken
from Seldens book was not an infringement
upon said Seldens Books but was original
with myself in all points not prescribed

by Statute and says further that the right hand page of Affiant's book of 1867 differs from the right hand page of Selden's Book for Treasurers in the same Material points that the right hand page of Affiant's Auditor's book differs from the right hand page of Selden's book for Auditors. particularly described in the foregoing portion of this Affidavit - that said right hand page was not taken from Selden's Book but was made to fill the requirements of the Statutes and otherwise Compiled from Sources original with the Author.

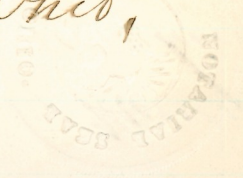

Affiant further says he has not mortgaged his property to any individual Railroad Company, or other Corporation, that he has not given any Mortgage to any trustee of person or persons representing said Railroad Company Corporation or to any person whomsoever. Affiant further says that he has not paid to any Railroad Co., nor any person representing the same or any individual any sum of money neither has there been any claim advanced or demand made by any Railroad Company for any money or value since my statement of the Condition of my property heretofore made and deponent says that his property remains as in said Statement, and affiant says that no claim or demand ~~for~~ has ever been made upon him by any Railroad Co. Corporation or representative thereof for any money or claim whatsoever at any time. And also further

affiant faith not.

W. M. Baker

Subscribed in my presence and sworn to before
me by said W. M. Baker this 8th day of June 1875
